

L. Krastanov G. Miloshev

**Theoretical Bases
of Phase Transitions
of Water in the Atmosphere**

Budapest, 1980

CONTENTS

P r e f a c e	9
I n t r o d u c t i o n	13
C h a p t e r I. THERMODYNAMICS OF THE HOMOGENEOUS PHASE FORMATION	17
Thermodynamic Potential and Conditions for Stability of a New Phase	17
Equilibrium Conditions for phases of Small Dimension without and with Adsorption of Extraneous Substances	18
Work of the Homogeneous Embryo Formation in a Supersaturated Phase	21
Rate of Embryo Formation	23
C h a p t e r II. THERMODYNAMICS OF THE HETEROGENEOUS PHASE FORMATION	25
Condensation and Ice-forming Nuclei in the Atmosphere. Properties and Role of the Nuclei in the Formation of a New Phase	25
Formation of Liquid Embryos on Completely Wettable Insoluble Nuclei	35
Formation of Liquid Embryos on Incompletely Wettable Insoluble Nuclei	38
Activity of the Condensation Nuclei	42
Effect of the Substrate Roughness on the Formation of Liquid Embryos	45
C h a p t e r III. KINETICS OF THE HETEROGENEOUS FORMATION OF LIQUID EMBRYOS	51
BECKER-DÖRING Method of Heterogeneous Condensation	51
Kinetics of the Formation of Liquid Embryos on Incompletely Wettable Insoluble Nuclei	55
Generalization of the Existing Cases	61
C h a p t e r IV. PHASE TRANSITIONS DURING ADSORPTION OF EXTRANEIOUS SUBSTANCES	65

	Formation of Liquid Embryos with Adsorption of Foreign Substances. Generalizations	65
	On the Possibility of Facilitating the Condensation Process by Means of Adsorption	69
	On the Possibility of Activation and Passivation of the Condensation Nuclei	72
	A Combined Case of Facilitation of the Condensation Process and Activation or Passivation of the Condensation Nuclei	74
	Sizes of the Most Active Nuclei during Adsorption	76
	Kinetics of Embryo Formation in the Presence of Adsorption	82
Chapter V.	CRYSTALLIZATION OF SUPERCOOLED WATER DROPS . .	87
	Type of the New Phase Formed during Condensation below 0 °C (OSTWALD'S Step-Rule). Formation of the Ice Phase as a By-Product of the Heterogeneous Freezing of Water Drops	87
	THOMSON-GIBBS' Modified Equation for the Equilibrium of a Crystal Embryo in a Small Drop	93
	Thermodynamics of the Heterogeneous Formation of Crystal Embryos from a Supercooled Melt	97
	Crystallization Activity of Completely Wettable Nuclei	102
	Freezing of Small-Sized Water Drops with Incomplete Wetting of the Ice Embryo	104
Chapter VI.	ESSENTIAL ELEMENTS OF THE MOLECULAR KINETICS THEORY OF STRANSKI AND KAISCHEW	115
	Method of the Mean Work of Separation. THOMSON-GIBBS Modified Equation for Crystals	115
	Work of Formation of Crystal Embryos	120
	Equilibrium Form of the Crystals. WULFF'S Theorem. Determination of the Equilibrium Form by Means of the Mean Work of Separation. Generalization of GIBBS-WULFF'S Rule for Crystals on Substrates . .	122
	Effect of the Adsorption of Extraneous Substances on the Equilibrium Forms and on the Work of Formation of Crystal Embryos	127
Chapter VII.	PHYSICS OF THE ICE CRYSTAL	133
	Crystal Structure of Ice and Forces Acting between Its Building Elements	133

	Equilibrium Form of the Ice Crystal	135
	Growth Forms of the Ice Crystal	138
	Formation of Ice Embryos on Their Own Crystal. Activity of the Equilibrium Faces of Ice	143
C h a p t e r	VIII. CRYSTAL EMBRYO FORMATION ON ISOMORPHIC NUCLEI UNDER NATURAL CONDITIONS AND IN THE PRESENCE OF ADSORPTION	147
	Formation of Crystal Embryos with Cubic Lattices on Incompletely Wettable Condensation Nuclei . . .	147
	Effect of Adsorption upon the Formation of Crystal Embryos on Nuclei	153
	Formation of Crystal Embryos with Tetragonal Lattices on Isomorphic Nuclei	157
	Effect of Adsorption on the Formation of Crystal Embryos with Tetragonal Lattices on Isomorphic	160
C h a p t e r	IX. KINETICS OF CRYSTAL EMBRYO FORMATION ON INCOMPLETELY WETTABLE ISOMORPHIC NUCLEI	163
C h a p t e r	X. ORIENTED CRYSTALLIZATION (Epitaxy)	175
	Principle of the Orientational and Dimensional Correspondence. Theory of Oriented Crystallization	175
	Oriented Crystallization (Epitaxy) on Isomorphic Nuclei	181
	Effect of Adsorption on the Crystal Surface in Oriented Crystallization	183
R e f e r e n c e s	185
