СПРАВКА ЗА ДОКЛАДИ ПРЕДСТАВЕНИ НА НАУЧНИ МЕРОПРИЯТИЯ (след придобиване на научно звание ст.н.с. II ст., името на докладчика е подчертано)

- 1. <u>Christova C</u>., 2000, Depth distribution of stress field in the Kamchatka Wadati-Benioff zone as deduced by stress inversion if earthquake focal mechanisms, III National Geophys. Conf. 11-13 October, Sofia, Bulgaria.
- Tsapanos T. and <u>Christova C</u>., 2000. Seismic hazard parameters in Crete and its surroundings from Bayes statistics: an integration of morphology of the seismically active structures and seismological data. NATO ARW 'State of scientific knowledge regarding earthquake occurrence and implication for public policy', Le Dune, Arbus, Sardinia, Italy, 15-19 October, 2000. Sci Directors:Toksoz M. N. and Stiros S.C.
- 3. <u>Christova C</u> and Kao H., 2002. Stress Field in the Vanuatu (New Hebrides) Wadati-Benioff Zone Inferred by Inversion of Earthquake Focal Mechanisms: Systematic Lateral and Vertical Variations 2002 Western Pacific Geophysics Meeting 9-12 July 2002, Wellington, New Zealand.
- 4. <u>Christova C.</u>, Scholz C.H. and Kao H., 2002. Test of the slab stress guide hypothesis for the Vanuatu Wadati-Benioff Zone, AGU, Fall Meeting, San Francisco, USA.
- <u>Christova C.</u> and Kao H., 2003. The puzzle of the stress field in the Ryukyu-Kyushu arc. Abstr. International Workshop Plate Boundary Observatory - "Ocean Bottom Seismometers (OBS), Technology and Opportunities", March 4-5, 2003, Inst. Earth Sciences, Academia Sinica, Taipei, Taiwan.
- <u>Christova, C.</u>, Kao, H., and Liang W-T., 2003. Changes in the long-term stress pattern in NE Taiwan area after the 2002 March 31 (Ml 6.9) earthquake. International Workshop Plate Boundary Observatory - "Ocean Bottom Seismometers (OBS), Technology and Opportunities", March 4-5, 2003, Inst. Earth Sciences, Academia Sinica, Taipei, Taiwan.
- Christova C. and <u>Scholz C.H.</u>, 2003. Stresses in the Vanuatu slab and the mechanism of deep earthquakes. Seis., Geo., & Tecphys. Seminar, Aug. 18th 2003, LDEO, Columbia Univ., Nyew York, USA.
- <u>Christova C.</u>, 2004. Space distribution of stresses in the Izu-Bonin Wadati-Benioff zone by inversion of earthquake focal mechanisms. Fourth National Conference with International Participation "Geophysics in economic activity, environment and cultural heritage investigations", 4-5 Oct. 2004, Sofia, Bulgaria.
- 9. <u>Dimova S., Christova C., Glavcheva R. and Haralanov M.</u>, 2004. A macroseismic survey in the epicentral zone of 17 December 2003 Provadya earthquake (Md 4.4). Fourth National Conference with International Participation "Geophysics in economic activity, environment and cultural heritage investigations", 4-5 Oct. 2004, Sofia, Bulgaria.
- 10. <u>Christova C.</u> and Nikolova S. 2005. Contemporary plate tectonics in the Aegean region by seismological studies, In: "Earthquake monitoring and seismic hazard mitigation in Balkan countries–NATO ARW 11-17 Sept. 2005-Borovetz-Bulgaria".
- 11. <u>Christova C.</u>, 2006. Stress field in subduction zone by inversion of earthquake focal mechanisms-the Vanuatu and Izu-Bonin Wadati-Benioff zones as examples. ERI Univ. of Tokyo, Danwakai Seminar* (April, 2006) (*Danwakai: ERI holds "Danwakai", a monthly meeting where its members present their most recent academic and technical achievements, on a Friday of every month. Danwakai is open to the public.)
- 12. <u>Christova C., 2006.</u> Contemporary dynamics of the Ryukyu-Kyushu and Izu-Bonin subduction zones by stress inversion of earthquake focal mechanisms. ERI Univ. of Tokyo, July Seminar.

- 13. <u>Christova C.</u>, Hirata N., Kato A., 2006. Contemporary stress field in the Wadati-Benioff zone beneath North Honshu and the Hokkaido corner by inversion of earthquake focal mechanisms evidences for 3-planar distribution of the stresses. Ext. abstract, National Conference Geosciences, 2006.
- <u>Christova C.</u>, Hirata N., Kato A., 2006. Contemporary stress field in the Hokkaido Wadati-Benioff zone by inversion of earthquake focal mechanisms - evidence for tearing of the subducting slab. Ext. abstract, National Conference Geosciences, 2006.
- 15. <u>Bonnardot M.-A.</u>, Christova C., Régnier M., Ruellan E., Tric E., Hassani R. New insights on the Tonga subduction zone from a seismotectonic study. EGU meeting, April 2-7th 2006, Vienna, Austria.
- <u>Bonnardot M.-A.</u>, Régnier M., Christova C., Ruellan E., Tric E. Stress field in the Tonga Benioff zone and geodynamical model for the first stages of the Lau Basin opening. AGU Fall meeting, December 11-15th 2006, San Francisco, USA.
- 17. <u>Bonnardot M.-A</u>., Régnier M., Christova C., Ruellan E., Tric E., 2007. Seismological evidence for a slab detachment in the Tonga subduction zone. The Subduction Zone Geodynamics Conference, June 7th- June 9th, 2007 Montpellier, France.
- 18. <u>Christova C.</u>, 2007. Stresses in Subduction Zones, Kynote lecture, ext. abstract, Symp. "Subduction Dynamics Bridging the Scales", 29 May-1 June, 2007, Ruhr University, Bochum, Germany.
- 19. <u>Christova C.</u>, 2007. Stresses in subducting slabs the Aegean region, Ryukyu-Kyushu, North Honshu, Hokkaido Corner, and Hokkaido Island as examples, Symp. "Subduction Dynamics Bridging the Scales", 29 May-1 June, 2007, Ruhr University, Bochum, Germany.
- 20. <u>Christova C.</u>, 2009. Stresses in subducting slabs Vanuatu, Izu-Bonin and Hokkaido as examples. Invited lecture at the Inst. of Rock Structure and Mechanics, Academy of Sciences of the Czech Republic.
